

Tuesday Sacramento Missions Thoughts April 19th 2011

It is the end of Day Two and I think we had a pretty full share of events for today. This morning our team was quick to get up. They were quick and quite efficient in morning preparations.

Mike drove us to Habitat for Humanity's Administrative offices with Chuck navigating.

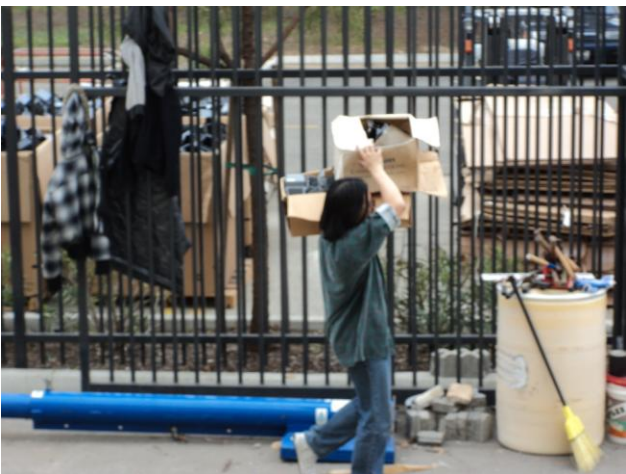

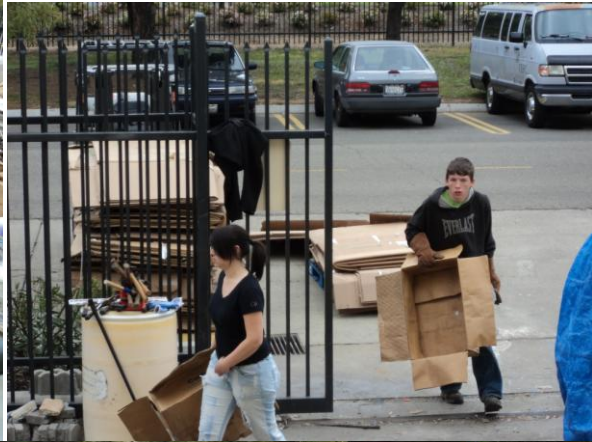

We arrived with no problem. Once we got there and worked through some logistical changes due to changes in the team, our contact, Christine, gave us a briefing on Habitat with some history and a lot of current detail.

With the loss of so many adults and older students, getting together some of the logistical detail was a little difficult, but God worked it out. Apparently there were supposed to be a larger number of others who were supposed to have connected this week with Habitat, but things did not work out. Fortunately, our team was able to fill in some blanks.

Our group cleared out a great deal of trash, junk, did a lot of sorting and organizing and prepared several cases of commercial recycling.

We packed 15 cases of Material from Scratch!

It was interesting how we took a sec to ask God for additional assistance and within minutes, God sent Joe! 😊

We took a break for Lunch.

Early in the afternoon, we took a brief break for showers and to prep for the evening Children's Program.

We had 18 Children Join us for tonight's Children's Program!

The program was well received.

We took time tonight to have dinner at Pastor Scott's House.

It's A Great Start to the week!

Blessed and Pleased,

Jackson Fong Student Ministries Pastor

Community Church of Susanville

Here are some additional thoughts from the team:

- I LOVED working with the kids today- Highlight of my day!
- Finding different methods of sorting and nail removal was interesting.
- I was so inspired by the men when it came to VBS. To see them involved was priceless!
- It's nice to see the kids that came and to see how happy they were when they found out more is to come tomorrow!
- God showed me that If I was to move here I would love to volunteer at Habitat for Humanity. I felt a strong connection and passion for the work they do here.
- Today was a prett amazing day. The Sac mission team has had time to get to know each other. Tday we really WORKED together ... and we did it very well. AMAZING!
- I Loved to see how each one of us in the group pulled together as a team and worked to complete the tasks that we were given and the talents that each of us gave. Both at Habitat for Humanity and the Powerhouse VBS Program God Shown through our efforts.
- Today we worked with Habitat for Humanity, though at first I thought we weren't doing much. At the end I saw how well and much our team did. Had an Amazing Day! Oh! Smores were Awesome!
- What God revealed o me was how a group of people worked and got a job done like they had done it before, even though they barely knew each other.
- I never realized I could be a positive role model for the youth. And today I realized that I CAN!
